

**ABN AMRO VACANCY: Finance Officer ID&JG**

**Location:** ID&JG – Pelikaanstraat 70 – 2018 Antwerpen

**Description of ID&JG:**

The International Diamond & Jewellery Group (ID&JG) is a global business unit servicing the diamond and jewellery industry throughout the world. ID&JG is the market leader in this industry. The BU ID&JG operates in 8 locations globally, following the value chain of the diamond and jewellery industry and its respective key clients. The ID&JG organization has a commercial focus, supported by global enabling roles like risk, operations, and finance.

**Roles of the ID&JG Finance Department:**

The ID&JG finance department is responsible for supporting the implementation of the global mission of ID&JG. The ID&JG Finance Officer supports the internal stakeholders by getting a global insight and oversight of all the financial aspects of the business globally. ID&JG finance is not accountable for local regulatory reporting nor for financial HO reporting. The focus of ID&JG Finance is on control, insight and analysis.

Core activities embrace the following elements for the global BU:

- Monthly and quarterly analysis and control of all relevant financial data (e.g. Profit & Loss, Balance sheet, Risk Weighted Assets, Provisions, ...)
- Maintain global network with all relevant financial and non-financial business partners
- Set up the BU budget with business and Finance stakeholders
- Providing financial management information to all relevant stakeholders (e.g. via dashboards or other financial reports)
- Support in all other activities and issues that relate to ID&JG financials
- Global point of contact for all ID&JG units around the globe for financial topics
- Participating to ad hoc financial projects relating to the global ID&JG business

The department is looking for an enthusiastic colleague who can work independently and assist the CFO ID&JG in the realization of the above described objectives.

**Description of tasks and activities:**

He/she will assist the CFO in all the current financial processes. Depending on the business needs, this can vary from data collection, analysis, reporting or participation in improvement programs in relation to current financial processes. He/she will gain valuable experience to apprehend and operate with the dynamics of an international business division in a large financial conglomerate.

**Profile:**

- Education: financial background on bachelor level
- Good financial knowledge (e.g. on balance sheet, profit and loss statements)
- Relevant working experience of 4-5 years
- Language: fluent in Dutch and English (written and spoken)
- Analytical mind - interested in working with & analysing of financial data

- IT skills: good knowledge of Excel, Word & Power Point. Knowledge of Access is a plus.
- Enjoys making presentations for the business including explanation of financial analyses
- Accurate, result driven, flexible, pro-active, committed team player
- International oriented mind set, loves taking initiatives
- Excellent communication skills
